

Care Instructions

SunWeave Tempered Glass

Properties

All SunWeave glass tops are made of 6 mm tempered glass. (Safety Glass). There is no difference between the top and bottom sides.

For all tables, choose between either clear or smoked dark glass.

Cleaning

With a little care, you can keep your SunWeave Glass looking like new for many years.

For routine, general cleaning, clean the table top with a moist microfiber cloth. Most spills and marks can be removed with water and ordinary household detergent.

For tougher stains and more thorough cleaning, we recommend using a household glass cleaner (such as Windex), following the instructions detailed on the label.

Lime deposits from pot plants can be removed with a mild vinegar solution.

Handling

It is important to handle your table top with care and avoid setting it down hard or putting strain on the edges after the packaging has been removed.

Glass table tops should always be handled by 2 people.

Placing / banging sharp objects on the table top can cause scratches. Moving/pushing things with rough edges across the table can cause scratches that cannot be removed.
